

## Baker Hughes Summer Internship Program In US 2024

### Description

The Baker Hughes Summer Internship Program offers a rewarding opportunity for undergraduate and graduate students to explore diverse career paths within the energy industry. You'll be placed in a specific department based on your academic background and interests, working on projects related to:

- **Energy Technology:** Assist with the development and testing of advanced technologies for oil and gas exploration, production, and optimization.
- **Digital Solutions:** Explore the exciting world of digitalization in energy, contributing to the development and implementation of data-driven solutions.
- **Project Management:** Gain exposure to project management methodologies by supporting project teams in planning, execution, and control.
- **Operations:** Assist with field operations or manufacturing processes, gaining insights into the practical applications of energy technology.
- **Business Development & Strategy:** Support business development activities, contributing to market research and exploring new growth opportunities.

### Responsibilities

- Assist with assigned projects under the guidance of experienced mentors.
- Conduct research, analyze data, and prepare reports relevant to your internship area.
- Participate in meetings, trainings, and potential site visits (depending on location and role).
- Contribute to maintaining a collaborative and safety-conscious work environment.
- Specific tasks will vary depending on the chosen department and program focus.

### Qualifications

- Currently enrolled in an undergraduate or graduate program in engineering, science, business, or a related field.
- Minimum GPA of 3.0 or higher preferred.
- Strong interest in the energy sector and a desire to learn about innovative technologies.
- Excellent communication and interpersonal skills with a willingness to collaborate.
- Ability to work independently and manage time effectively.

### Experience

- Prior internship experience in a technical or business environment is a plus,
