## Bureau of Labor Statistics internships Students Opportunities 2026

### Description

The Bureau of Labor Statistics (BLS) offers exciting internship opportunities for students in 2026. As an intern, you will work alongside seasoned professionals in the field of labor economics and statistics, gaining invaluable hands-on experience in data collection, analysis, and reporting. This internship provides a unique opportunity to contribute to the production of essential economic indicators and reports that shape national policies and inform decision-making processes.

### Responsibilities

- Assist in collecting and compiling data on various economic indicators such as employment, unemployment, wages, and prices.
- Conduct data analysis using statistical software and assist in interpreting findings.
- Assist in preparing reports, charts, and graphs for dissemination to policymakers, researchers, and the general public.
- Collaborate with BLS staff on special projects and research initiatives.
- Attend meetings, workshops, and seminars to enhance knowledge and skills in labor economics and statistics.

### Qualifications

- Currently enrolled in a degree program related to economics, statistics, mathematics, sociology, or a related field.
- Must have completed at least two years of undergraduate coursework by the start of the internship.

### Experience

- No prior work experience is required; however, experience with statistical software (e.g., R, SAS, Stata) and data analysis techniques is beneficial.
- Experience with data collection and research methodologies is a plus.

### Skills

- Strong analytical and quantitative skills.
- Proficiency in Microsoft Excel and other data analysis tools.
- Excellent attention to detail and accuracy.
- Effective communication skills, both verbal and written.
- Ability to work independently and as part of a team.
- Demonstrated interest in labor economics, statistics, or related fields.

### Job Benefits

- Hands-on experience in a professional setting with guidance from experienced professionals.
- Exposure to real-world applications of economic theory and statistical
