CDC Internship Program For Students Graduate 2026/2025

Description

The Centers for Disease Control and Prevention (CDC) offers a competitive internship program for undergraduate and graduate students graduating in the 2026/2025 academic year. This program provides an invaluable opportunity to gain hands-on experience working on public health projects alongside renowned professionals at the forefront of disease prevention and control. Interns will contribute to meaningful work that directly impacts the health and well-being of communities across the nation.

Responsibilities

- Assist CDC professionals with various tasks related to their assigned project or area of work, which could include:
 - Researching public health topics and collecting data.
 - Analyzing data and preparing reports.
 - Developing and implementing public health programs.
 - Participating in outreach and communication activities.
- Attend professional development workshops and seminars to enhance knowledge and skills.
- Contribute to a collaborative and team-oriented work environment.

Qualifications

- Enrolled in an accredited undergraduate or graduate program in public health, biology, epidemiology, environmental health, or a closely related field (other disciplines may be considered based on specific program needs).
- Minimum 3.0 GPA (on a 4.0 scale).
- U.S. citizenship or permanent resident status.

Experience

- Prior internship experience in a public health-related field (preferred).
- Research experience, data analysis skills, or experience with public health software (preferred).

Skills

- Strong analytical and problem-solving skills.
- Excellent communication and interpersonal skills, both written and verbal.
- Ability to work independently and as part of a team.
- Proficient in Microsoft Office Suite (Word, Excel, PowerPoint).
- Additional skills may be required depending on the specific internship placement.
