## Duke Energy Summer Internship Program 2026

### Description

Duke Energy is excited to announce the Summer Internship Program for 2026, providing students with a unique opportunity to gain hands-on experience in the energy industry. This program aims to foster professional development and provide exposure to diverse projects within Duke Energy.

### Responsibilities

- Collaborate with departmental teams on various energy-related projects.
- Conduct research, gather data, and contribute to analytical reports.
- Assist in the planning and execution of energy initiatives and programs.
- Engage in fieldwork to gain practical experience in energy operations.
- Provide administrative support and contribute to ongoing projects.
- Participate in professional development activities and networking events.

### Qualifications

- Currently enrolled as an undergraduate or graduate student in a relevant field (Engineering, Business, Environmental Science, etc.).
- Strong academic record.
- Excellent written and verbal communication skills.
- Detail-oriented with strong organizational abilities.
- Ability to work independently and as part of a team.
- Passion for the energy industry and commitment to sustainable practices.

### Experience

- Previous internship experience or coursework related to the energy sector is preferred but not mandatory.
- Familiarity with energy regulations and sustainability practices is advantageous.

### Skills

- Proficient in Microsoft Office suite (Word, Excel, PowerPoint, Outlook).
- Analytical thinking and problem-solving skills.
- Adaptability and a willingness to learn about energy operations.
- Strong interpersonal and teamwork skills.
- Time management and ability to handle multiple tasks effectively.

### Job Benefits

- Gain practical experience in the energy industry with a leading company.
- Networking opportunities with professionals in the energy sector.
- Exposure to various aspects of energy production, distribution, and sustainability.
- Mentorship and guidance from experienced Duke Energy professionals.
- Potential for academic credit, if applicable.
