

## Entergy Internship For Graduate Students 2026 Apply Online

### Description

Elevate your academic knowledge and gain real-world experience with the Entergy Internship Program for Graduate Students 2026! Work alongside industry leaders in the energy sector, contribute to impactful projects, and develop the skills and expertise necessary to launch a successful career at a leading energy provider.

### Responsibilities

- Assist with research projects related to various aspects of the energy industry, such as:
  - Renewable energy integration
  - Smart grid technologies
  - Regulatory compliance
  - Sustainability initiatives
- Depending on your specific internship placement, you may also be involved in:
  - Data analysis and interpretation
  - Technical report writing
  - Project management and support
  - Supporting field operations (may require travel)
  - Contributing to presentations and meetings

### Qualifications

- Currently enrolled in a Master's or Ph.D. program in a field related to engineering, science, business, public policy, or a closely related discipline, relevant to the energy industry.
- Strong academic record with a minimum GPA of 3.0 (preferred).
- Demonstrated interest in the energy sector and Entergy's mission of providing reliable, affordable, and sustainable energy.
- Prior research experience and strong analytical skills.

### Experience

- Previous internship experience in a technical or research-based setting is highly desirable.
- Experience in the energy industry is a plus, but not mandatory.

### Skills

- Excellent written and verbal communication skills.
- Strong problem-solving and critical thinking abilities.
- Ability to work independently and as part of a team in a fast-paced environment.
- Proficient in Microsoft Office Suite and data analysis tools (e.g., R, Python, MATLAB).
