FPL Summer Internship Program In United States 2026

Description

FPL offers a Summer Internship Program to provide undergraduate and graduate students with the opportunity to gain valuable experience in the energy industry. Interns will be placed in various departments across the company, depending on their skills and interests.

Responsibilities

Assist with departmental projects and tasks, which may include:

- Research and analysis related to energy generation, transmission, distribution, or customer service.
- Project management and data analysis.
- Marketing and communications support.
- Engineering and technology projects.
- Sustainability initiatives.

Qualifications

- Currently enrolled in an accredited undergraduate or graduate program.
- Major in engineering, technology, business, communication, environmental science, or a related field (specific requirements may vary depending on the position).
- Strong academic record (GPA requirement to be announced).
- Excellent communication, teamwork, and problem-solving skills.
- Ability to work independently and take initiative.
- Some technical skills may be required depending on the position.

Experience

- Previous internship or volunteer experience preferred, but not required.
- Relevant coursework in your field of study is a plus.
- Experience in the energy industry is a plus (but not always required).

Skills

- Proficient in Microsoft Office Suite.
- Strong written and verbal communication skills.
- Ability to work effectively in a team environment.
- Time management and organizational skills.
- Analytical and problem-solving skills.
- Technical skills may be required depending on the position (e.g., programming, data analysis software).

Job Benefits

- Gain valuable experience in the energy industry.
