Stennis Space Center Summer Internship Program 2026

Description

Explore the infinite possibilities of space exploration through the Stennis Space Center's Summer Internship Program in 2026. This program offers students a unique opportunity to be part of cutting-edge projects, gain hands-on experience in space-related research, and contribute to the advancement of space science and technology.

Responsibilities

- Collaborate with scientists, engineers, and researchers on space-related projects.
- Assist in data collection, analysis, and interpretation.
- Contribute to the development and testing of space technologies and systems.
- Engage in day-to-day activities supporting the Stennis Space Center's mission.

Qualifications

- Currently enrolled in an undergraduate or graduate program.
- Pursuing a degree in Aerospace Engineering, Physics, Computer Science, or a related field.
- Strong academic record.
- U.S. citizenship or eligibility to work in the United States.

Experience

While prior space-related experience is not mandatory, a passion for space exploration and research is highly valued.

Skills

- Strong analytical and problem-solving skills.
- Excellent communication and interpersonal abilities.
- Adaptability and a willingness to learn in a dynamic space research environment.
- Proficiency in relevant software and tools.

Job Benefits

- Exposure to cutting-edge space research and technology.
- Mentorship opportunities with experienced professionals at the Stennis Space Center.
- Networking opportunities within the space science and technology community.
- Contribution to projects that shape the future of space exploration.
- Competitive stipend and potential for future career opportunities.
